

## **Two Person Match Play Scramble Rule States Golf Course**

1. We have two flights, A and B. The A flight plays 4 matches and the B flight 3 matches. If the B flight wants to play a practice round at 9 am, they can, but they must be ready at the course by 10:30 for the first match.
2. Everyone will play from the Red Tees. There are no handicaps used, you are playing each match straight up.
3. All A flight player matches will start at 9 am. You must be in your cart and ready to go to your hole by 8:45.
4. Each player in the team will hit their own drive, the players choose the best of the two shots. Each golfer will then hit a ball from the chosen place and proceed likewise until the lowest score for the hole is achieved. The process will then begin anew on the next hole until the end of the round with score determined by hitting the hole.
5. There is 1 point available per hole. If your team wins the hole, you receive 1 point. If both teams draw the hole, nobody receives a point.
6. The players are allowed to improve their lie by one club length through the green, except hazards. In cases if the team's best shot falls on a hazard such as sand or water, they are forced to play from the location without moving. This means a player cannot enjoy the one club length advantage when the ball dropped in a hazard. You also cannot improve your lie from rough to fairway. You must remain in the same type of lie.
7. If your best ball is in a hazard, normal USGA rules apply to getting relief from that hazard.
8. If you are tied after 9 holes, the match will go to a chip off. Go immediately to the practice green. Each person will chip from the designated spot. The chip closest to the hole wins. Report who wins to the clubhouse immediately.
9. If a team can no longer win the 9 hole match, you are encouraged to stop the game, go into the club house and report which team has won the match. For example, you are 4 up with only 3 holes to play. If you leave it helps speed play up for matches that might go 9 holes.
10. When you are done you can rest until the next round of matches start. Please don't go away from the course as we are not able to determine the exact time the next round will begin.
11. In match play, your opponent may concede the hole or give you a putt.
