Match Play Format & Rules

- [USGA rules for match play](#) apply.
- **No handicaps** will be used for individual matches.
- The player with the **lowest score on a hole wins** that hole.
- The match ends when a player is up by more holes than remain.

- The **player farthest from the hole** plays first until holed out.
 - You may **concede a stroke, hole, or match** at any time (e.g., a 'gimme' putt).
 - If the match is **tied after 18 holes**, continue playing sudden-death until one player wins a hole. Check with the clubhouse to confirm which holes are available for extra play.
 - **Local course rules** apply; see each course's scorecard for details.
 - Matches should be played as a **twosome**, unless another twosome (also playing their tournament match) joins. Only players in the Season-Long Match Play may be in the group.
 - This is a **double elimination** format:
 - After your **first loss**, you move to the **Consolation Bracket**.
 - After your **second loss**, you are eliminated from the tournament.
-
