

LIVE TOURNEY Update:

New Software & Events!

(March 2026 Bulletin)

Our New Software Has Launched!

Good News: No New App Needed!

- You **do NOT** need to download a new app. Access is via your mobile browser.
- **Delete the old "GolfSoftware App"** (unless you use it for another league).
- **Why the change?** The old system couldn't keep up with GHIN integration, course rating updates, and modern features. The new system is more robust.

Event Details & Sign-Up Process:

- Click on any tournament to see full details: pricing, format, course, and who can participate (e.g., "Members Only").
- **Team or Individual:** All One Day Events allow you to sign up as a team or individually.
 - Teams will appear together immediately.
 - Individual sign-ups may require manual intervention to appear in teams.
- **See Who's Registered:** At the bottom of the registration page, click the "Registered #" to see who has signed up. This lets you know who's playing.
- **Easy Sign-Up:** Type your name in the "Search Roster" field. You won't need to add emails, handicaps, or other info if you're on the roster (unless signing up a guest).

How Leaderboards & Scoring Work

(No App!)

Accessing Event Info & Scorecards:

The screenshot shows a golf scorecard for a 'Test Event'. At the top left is the KWSA logo. The event name 'Test Event' is centered, with a QR code to its right. Below the name are the website 'livetourney.com/58650' and the code 'Code: 3916'. The main table shows scores for 18 holes, with columns for 'IN', 'OUT', and 'TOT'. Rows include 'BLUE', 'HDCP', 'PAR', and a summary row for 'Powers + Conrad + Rowekamp + Rowekamp'. At the bottom, there are fields for 'Scorer:', 'Attest:', and 'Date:'.

9:00 AM - 03/09/2026	1	2	3	4	5	6	7	8	9	OUT	10	11	12	13	14	15	16	17	18	IN	TOT

- **No app is**

required. Leaderboards and scorecards are accessed through your mobile browser.

- **Two ways to access during an event:**

1. **QR Code:** Scan the QR code printed on your scorecard.
2. **Website:** Go to the event page (<https://kwga.net/Events>) and enter the unique code from your scorecard.

How to Scan a QR Code:

- **iPhone (iOS):**

1. Open the Camera app.
2. Point it at the QR code.
3. Tap the notification/link that appears.
4. *(Alternatively: Use the "Scan Code" button in Control Center.)*

- **Android:**

1. Open your default camera app.
2. Point it at the QR code.
3. Tap the banner/link that appears.
4. *(Alternatively: Use the "QR scanner" option in Quick Settings.)*

Quick Access "App Icon" (Without Installing an App): You can save the event page to your home screen for quick access, making it function like an app.

- **Safari (Apple Users):**

1. Open Safari and go to the event webpage.
2. Tap the **Share button** (square with an up arrow).
3. Scroll and tap **"Add to Home Screen."**
4. Edit the name if desired, then tap "Add."

- **Chrome (Android Users):**

1. Open Chrome and load the event webpage.
2. Tap the **three-dot menu** (top-right).
3. Tap **"Add to Home screen."**
4. Edit the name if desired. The icon will appear on your home screen.

USGA GHIN App: Important Handicap

Info!

GHIN is Now Standard:

- This is the first year we're all using the **same GHIN handicap system** (unless you're a guest). This ensures fairness.
- **New to GHIN?** You must create your digital profile (a link will be sent when added to the system) and post your scores.
- **Need old scores?** Contact Bev to get your scores from the previous app.
- **No Handicap?** You will compete as a 0 handicap, which isn't ideal!

We're excited for the new season! This software addresses many issues, including easier sign-ups, team registration visibility, and electronic scoring. There will be a learning curve, but we can make this work together.
